

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	31 July 2026
Team ID	Team 1
Project Name	Employee Software Installation Request through Service Catalog
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Software Request Submission	Submit via Service Catalog form Capture business justification Select installation device & license type
FR-2	Approval Routing	Auto-route to requester's Manager Manager approves/rejects via My Approvals
FR-3	Fulfillment	Auto-create Catalog Task on approval Assign task to Network/Software Support team
FR-4	Escalation	Auto-create Incident on license shortage Assign Incident to Software Support group
FR-5	Notifications	Email employee on approval Email employee on rejection with reason
FR-6	Status Tracking	View request status via My Requests Status reflects Requested/Approved/Rejected/Closed

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Request form completable by a non-technical employee in under 2 minutes
NFR-2	Security	Only the assigned manager can approve/reject a given request; role/ACL-based access control
NFR-3	Reliability	Every submitted request must reach an approver with no silent failures
NFR-4	Performance	Approval routing and notifications complete within seconds of an action via Flow Designer
NFR-5	Availability	Solution runs on ServiceNow's managed cloud platform with standard uptime SLA
NFR-6	Scalability	Native multi-tenant ServiceNow platform scales to additional request types/volumes without redesign
