

Project Design Phase Problem – Solution Fit Template

Date	31 July 2026
Team ID	
Project Name	An employee requests installation of licensed software through the Service Catalog
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why.

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ Understand the existing situation in order to improve it for your target group.

Template:

Problem-Solution Fit Canvas — filled for: Licensed Software Request via Service Catalog					
Define CS, fit into CC	1. CUSTOMER SEGMENT(S) CS All employees across departments (business users, developers, analysts, managers) who need licensed software (e.g. MS Project, Adobe Acrobat Pro, Visio) to do their job.	6. CUSTOMER CONSTRAINTS CC License budget caps, limited seats, IT admin-rights/security restrictions, manager approval hierarchy, and employees not knowing what's already licensed.	5. AVAILABLE SOLUTIONS AS Emailing/calling the IT helpdesk, raising a manual ticket, walking up to the IT desk, or waiting for scheduled batch deployment. Slow and hard to audit.	Explore AS, differentiate	
	2. JOBS-TO-BE-DONE / PROBLEMS J&P Get the required licensed software installed quickly and compliantly to start/continue assigned work without breaching license limits or policy.	9. PROBLEM ROOT CAUSE RC No centralized self-service way to request, approve, and track software installs. Manual handling causes delays, duplicate licenses, and poor compliance visibility.	7. BEHAVIOUR BE Employee emails IT or manager, waits for manual approval, then IT manually checks license availability and installs the software.	Focus on J&P, tap into BE, understand RC	
Identify strong TR & EH	3. TRIGGERS TR New employee onboarding, assignment to a new project/tool, an expiring trial, or a manager mandate to standardize on a licensed app.	10. YOUR SOLUTION SL A "Software Request" Service Catalog item: employee submits request; manager approval + Software Asset Management license check run automatically; then an orchestrated fulfillment flow triggers the deployment tool to install the software and update the CMDB, closing the loop with an automatic notification to the employee.	8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE Employee Self-Service Portal, email and in-portal request-status notifications.	Extract online & offline CH of BE	
	4. EMOTIONS: BEFORE / AFTER EM Before: frustrated, blocked, unsure of status. After: confident, productive, in control - reinforce in Portal status messaging.		8.2 OFFLINE IT service desk walk-in counter, helpdesk phone line for urgent/escalated requests.
